Honey:-

Received your welcome letter of the 1st and believe me, I was fine glad to get it. I was never so anxious for anything as I was for some mail from you. Of course, this excepts the time when I asked you for you.

Glad to hear that you are begining to like your new job & as for Rose Jonedeff, well, I don't know what to say. She ought to know better than to go & hold herself out as competent.

I was appointed to-day to defend 2 niggers, man & woman, both for stealing, and as they are charity cases, I don't affect to get anything, but the woman insinuated that she was going to pay for my services, so effect to get a little from her. If I do, it goes in the bank towards my future wifes account.

Haven't much more, now, but hope I'll get mail a little more often than once in 5 days. See if you can't do as you promised. One a day & a big one every week.

Take care of yourself & remember,

I am

yours with love

Joe
